

SIGNAGE

Due to its excellent ability to withstand weather conditions, concrete is a prime material selection for small and large scale signage and memorial elements.

With the flexibility afforded by precasting concrete, numerous shapes, textures and colours can be produced. Embossed lettering, surface textures and combination with different materials are some of the options designers can select to make a concrete sign stand out.

PREVIOUS WORKS

In addition to the catalogued signage range, SVC has been involved in several signage projects which featured bespoke signage elements. A selection of these are listed below.

MONASH UNIVERSITY

Design \ \ Buro North
Client \ \ Adherettes

Buro North's wayfinding signage design was inspired by the upturned triangle within the Monash University crest.

SVC supplied the geometric charcoal sign bases installed throughout the Clayton campus.

VIETNAM VETERANS' WALK

Design \ \ Vietnam Veterans Association
Client \ \ Australian Quality Landscaping

A commemorative walk in Seymour, Victoria honours the work of all Australian servicemen and servicewomen.

Names of those who served are inscribed on glass panels, above a curving concrete base adorned with red poppies.

INSIGNIA ESTATE, BALLARAT

Design \ \ Integra Group
Client \ \ Integra Group

Adjoining the Ballarat Golf Course, the Insignia residential estate promises a lavish lifestyle with spectacular views.

SVC supplied a polished concrete sign with embedded lettering, now on display at the entrance to the estate.

PORT OF MELBOURNE

Design \ \ Port of Melbourne Corporation
Client \ \ Watpac Construction

The Port of Melbourne is Australia's largest maritime hub for containerised, automotive and general cargo.

In 2011 SVC supplied several geometric sign bases with embedded numbers for the port's new signage strategy.
